Laura - Thanks for your note. I plan to meet with the other current invitees who have been involved in developing soil sampling plans and related communications (Paula, Liz, Cynthia, Dan and Susan), to let them all hear the same message regarding the change in approach to dealing with community soils. Part of that message will be that Steve Way will be setting up a transition meeting in the near future, at which time we can share all the current information we have regarding requests for sampling from private property owners, the ESAT-developed sampling plan, and the draft communication strategy for community soils.

Thanks,
Steve

Subject: Animas/Silverton meeting tomorrow

Steve Wh and Paula,

Steve Way will not be back in town in time to attend this meeting. You'll need to reschedule if your intent is for knowledge transfer so Removal can proceed as lead for Silverton soils separate from the Remedial RI/FS efforts. Please include me in the invite for the rescheduled meeting. Thank you, lw
